### ALLOWANCE

An RCE was filed with an IDS on 3/7/07.

The following is an examiner's statement of reasons for allowance: the claimed invention is distinguished over the prior art of record in that the prior art does not teach a half tone phase shift mask comprising a clear defect area including a shading portion and wherein a semitransparent portion, is formed at the peripheral portion of the shading portion, having a transmissivity larger than that of said shading portion.

Morishige (6,333,130) teaches a correcting method for a defect in a mask comprising the step of depositing a second film, whose reflectance is smaller than that of said first film, so as to cover a metallic first film by irradiating with a laser beam an area of said substrate, said metallic first film being deposited on said area, to decompose a second input gas.

Yoshioka et al. (5,464,713) teach phase shift mask, comprising a light transmitting portion and a phase shifter portion formed on a transparent substrate, having a smaller transmittance of exposure light than that of said light transmitting portion, and converting a phase of exposure light by 180.degree, wherein a phase shifter defective portion in which a portion of said phase shifter portion is missing is provided in a region including a boundary between said light transmitting portion and said phase shifter portion, and a light shielding film is provided at said phase shifter defective portion and at a region protruding to said light transmitting portion for a predetermined length from a boundary between said light transmitting portion and said phase shifter portion included in said phase shifter defective portion.

Art Unit: 1756

However, neither Yoshioka et al. or Morishige teach the use of a semitransparent portion, formed at the peripheral portion of the shading portion, having a transmissivity larger than that of said shading portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
